## NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

$$\text{Recommended (\%)} = \frac{\text{very good} + \text{good}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

$$\text{Not Recommended (\%)} = \frac{\text{very poor} + \text{poor}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

### **Passive**

- ✓After sitting on the phone for hours the last 3 times I've called for appointments only to be cut off just before the end of the Que I can't give an opinion because I can't get an appointment
- ✓ *it's not necessarily the surgery but the system. since the pandemic everything It's such a faff. 3- 4 weeks for a telephone appointment then another wait if you have to have a face to face. it just all takes so long*
- ✓I have only been able to see one doctor in 5 years
- ✓ *When calling surgery there is no option for general enquiries. When appointments are full there is no way to get help so you should have this option added!*
